- Development of mentoring programme in joint venture with WiE for Young Engineers.
- Webinars for Soft Skills Development

CBI ELECTRIC CABLE PLANT VISIT - 2019

MIDEL ESTER OIL PLAN VISIT - 2020

"I am a proud CIGRE NGN representative for South Africa. I joined the committee in 2018 and the magnitude of contribution and radical change to my career development by CIGRE NGN is commendable. I have been afforded opportunities to participate in regional and international technical conferences, being part of work groups, WiE organizing committee and engaging with peers from different countries. My technical knowledge has strengthened through working and engaging with global industry specialists. I believe CIGRE NGN is a great leader, creating great leaders."

Keneilwe Seleme – CIGRE SA NGN Member
