Follow Up Meetings: As a new set-up group, with our active members, we are having monthly meetings. In every meeting, there are more active members are participating, which is our main aim for NGN Turkey's first years.

YTU – Student Club Establishment: Cigre Turkey decided to follow IEEE model in universities for student members. Thus official Cigre Turkey University clubs that will be in contact with Cigre Turkey NGN is started to establish. Our first contact made with Yildiz Technical University, which has one of the best engineering programs in Turkey. This collaboration will increase student members' activity and allow us to establish Cigre NGN – Academy bridge.

Black Sea Universities – Cigre Activity: With major universities at the Black Sea region of Turkey, Cigre Turkey made an online event with students to increase Cigre awareness. As Cigre NGN Turkey, we participated and introduced our aims and plans for future activities.

Emre Demirel

Our aim is to grow number of active members in Cigre NGN TR and be more active in NGN International events.

Making at least 2 events in 2022, at least one of the events is planned to be technical one.

Establishing at least 3 university clubs will increase popularity and Cigre awareness .
