

Experiencing the Future Power System.... Today

International CIGRE Symposium

Student Participation Information

Trinity College Dublin – Ireland: 29th May – 2nd June 2017

Student Participation

*The symposium is focussed on new innovations deployed in power & market systems today. To provide an opportunity for students in full time education to share their research on any of the main topics, a dedicated poster session will be run in parallel with the symposium. Up to 16 papers will be chosen from students around the world to participate in the poster session. The successful lead authors will receive **FREE REGISTRATION** for the Symposium.*

About The Dublin CIGRE Symposium

The symposium will focus on the experience that experts from around the globe have gained deploying new techniques, technologies, concepts and citizen involvement in all aspects of Power and Market Systems. This holistic assessment of the Power System of the future will include lessons learned from these practical experiences. More information including the Call for Papers can be found at www.cigredublin2017.net/call-for-papers/

Programme

The main symposium sessions will take place on Wednesday 31st May & Thursday 1st June. A half day tutorial session will be held on the afternoon of Tuesday 30th May and a technical visit will take place on Friday 2nd June.
