**Letter of gratitude for the organization of the student competition in
Electrical Engineering at**

Dear Prof. Makarov,

I appreciate that you organized the student competition in Electrical Engineering at the Ivanovo State Power University and enabled a group of students from the Technical University in Darmstadt in Germany to join this event. I think the students had a very exciting time in Ivanovo and gained very valuable experience. For this, I would like to express my cordial gratitude to you.

Furthermore, I'd like to ask you to convey my thankfulness to those persons and organizations, who financially supported this event. As far as I am informed, among them Dr. Boris I. Ayuev, Chairman of RNC Cigré and CEO of JSC System Operator of UES, was a great contributor.

Yours sincerely

Professor Dr.-Ing. Gerd Griepentrog
